SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents Use fire fighting measures that suit the environment.
- 5.2 Special hazards arising from the substance or mixture

Can be released in case of fire Carbon monoxide (CO) Nitrogen oxides (NOx) (Traces)

• 5.3 Advice for firefighters • Protective equipment:

Wear self-contained breathing apparatus. Put on breathing apparatus.

SECTION 6: Accidental re	lease measures

containment and cleaning up	: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralising agent.
	Dispose of contaminated material as waste according to item 13. Ensure adequate ventilation.
· 6.4 Reference to other	
sections	See Section 8 for information on personal protection equipment. See Section 7 for information on safe handling

SECTION 7: Handling and storage

7.1 Precautions for safe handling	Open and handle containers with care. Ventilation measures are required in rooms without sufficient air exchange (e.g. closed rooms), because the occupational exposure limit values (see chapter 8) could be exceeded. This must be avoided. Wear suitable personal protective equipment (see section 8). Avoid contact with eyes, skin and clothing. Change contaminated or
	damaged gloves and contaminated clothing immediately and wash skin immediately. Mix slowly, partially covering the mixing container. Pour carefully and slowly when repotting. Observe the BGBau technical data sheet and practical guide for handling epoxy
	resins.
