SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.

 For safety reasons unsuitable extinguishing agents 5.2 Special hazards arising from the substance or 	le Water with a full water jet.
mixture	Can be released in case of fire Carbon monoxide (CO) Nitrogen oxides (NOx) (Traces)
 5.3 Advice for firefighters Protective equipment: 	Wear self-contained breathing apparatus.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and	
emergency procedures · 6.2 Environmental	Wear protective equipment. Keep unprotected persons away.
precautions:	Prevent material from reaching sewage system, holes and cellars. Inform respective authorities in case product reaches water or sewage system.
• 6.3 Methods and material for	
containment and cleaning up	: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
	Dispose of contaminated material as waste according to item 13.
• 6.4 Reference to other	
sections	See Section 8 for information on personal protection equipment. See Section 7 for information on safe handling

SECTION 7: Handling and storage

7.1 Precautions for safe handling	Open and handle containers with care. Ventilation measures are required in rooms without sufficient air
	exchange (e.g. closed rooms),
	because the occupational exposure limit values (see chapter 8) could be exceeded. This must be avoided.
	Wear suitable personal protective equipment (see section 8). Avoid contact with eyes, skin and clothing. Change contaminated or damaged gloves and contaminated clothing immediately and wash skin immediately. Mix slowly, partially covering the mixing
	container. Pour carefully and slowly when repotting. Observe the BGBau technical data sheet and practical guide for handling epoxy resins.
