### **SECTION 2: Hazards identification**

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

Skin Irrit. 2 H315 Causes skin irritation.

Eye Dam. 1 H318 Causes serious eye damage.

STOT SE 3 H335 May cause respiratory irritation.

#### · 2.2 Label elements

· Labelling according to

**Regulation (EC) No 1272/2008** The product is classified and labelled according to the CLP regulation.

Hazard pictograms

· Signal word

 Hazard-determining components of labelling:

Portland cement

Danger

### **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- · Suitable extinguishing agents Not required
- 5.2 Special hazards arising
- from the substance or mixture
- 5.3 Advice for firefighters
- · Protective equipment:

No special measures required.

No further relevant information available.

### **SECTION 6: Accidental release measures**

- 6.1 Personal precautions, protective equipment and emergency procedures Not required.
   6.2 Environmental precautions: No special measures required.
   6.3 Methods and material for containment and cleaning up: Collect mechanically.
   6.4 Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.
- SECTION 7: Handling and storage
- 7.1 Precautions for safe handling

Avoid dust formation! Avoid spraying the ready-to-use cementitious product! Avoid contact with eyes and skin! Clean hands thoroughly at the end of work and before every break! Use skin care products! Change heavily soiled clothing! Change clothes at the end of work! Apply greasy skin protection ointment before starting work and after each break. Observe work restrictions!

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage

| Requirements to be met by storerooms and containers: | Store bags tightly closed; protect from moisture and water!                                                                                                                  |
|------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                      | Store containers tightly closed in a well-ventilated and well-lit room.<br>Access only for specialised personnel.                                                            |
|                                                      | Do not store in break rooms, recreation rooms or sanitary facilities<br>or in stairwells, corridors, escape and rescue routes, passages,<br>passageways and confined spaces. |
| <ul> <li>Information about storage in</li> </ul>     |                                                                                                                                                                              |
| one common storage facility:                         | Combined storage bans apply from a total storage quantity of 200 kg.                                                                                                         |
|                                                      | Do not store together with substances of the following LGK: 1; 6.2; 7                                                                                                        |
|                                                      | (Contd. on page 4)                                                                                                                                                           |

## Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 17.01.2025

Version number 25 (replaces version 24)

Revision: 17.01.2025

Trade name NAFUFILL SC 08

(Contd. of page 3) Storage with substances of the following LGK is only possible under the conditions specified in TRGS 510: 4.1A; 5.1C

· Further information about storage conditions: Storage class

Store in a dry and frost-free place.

SECTION 8: Exposure controls/personal protection

13

- · 8.1 Control parameters
- · Components with critical values that require monitoring at the workplace:
- CAS: 65997-15-1 Portland cement
- OEL (Ireland) Long-term value: 1 mg/m<sup>3</sup> respirable fraction

#### · DNELs

#### CAS: 65997-15-1 Portland cement

Inhalative DNEL 1 mg/m<sup>3</sup> (ArL)

The lists that were valid during the compilation were used as basis.

- · Additional information: · 8.2 Exposure controls
- · Appropriate engineering
  - No further data; see section 7.
- controls Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures Do not store food, eat, drink, sniff or smoke in the work area! Avoid contact with eyes and skin! Clean hands thoroughly at the end of work and before breaks! Use skin care products after work (moisturising cream). Change and clean heavily soiled clothing! Change clothes at the end of work! Apply greasy skin protection ointment before starting work and after every break. For work with higher dust loads particle filter class P2 • Breathing equipment: Check protective gloves prior to each use for their proper condition. · Hand protection Nitrile impregnated cotton gloves. · Material of gloves · Penetration time of glove material The exact breakthrough time must be obtained from the protective glove manufacturer and must be observed. · Eye/face protection Safety glasses · Body protection: Protective work clothing.
  - · Skin protection Use greasy skin protection ointment for all uncovered parts of the body!

## Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 17.01.2025

Version number 25 (replaces version 24)

Revision: 17.01.2025

(Contd. of page 5)

Trade name NAFUFILL SC 08

· Desensitised explosives

Void

### SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available. 10.2 Chemical stability Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications. 10.3 Possibility of hazardous reactions No dangerous reactions known · 10.4 Conditions to avoid No further relevant information available. · 10.5 Incompatible materials: No further relevant information available. · 10.6 Hazardous decomposition products: No dangerous decomposition products known

## **SECTION 11: Toxicological information**

• 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 • Acute toxicity Based on available data, the classification criteria are not met
